Technical director, collaborator and strategic planner with a 25+ year tenure in the food industry for retail and ecommerce channels leading regulatory compliance, quality assurance, food safety, product development for domestic and international businesses.

The following are matters or services in regulatory and food science for which I have developed a strong foundation and demonstrated competence as a subject matter expert working for mid- and large- sized companies and creatively applied to a start-up food company across all stages of a product's life cycle

#### Regulatory Services:

- Label Compliance Program for Food, Dietary Supplement and Cosmetic in Retail and eCommerce Channels
- Ingredient and Product Specification Review
- Product Design for Nutritional Improvement
- Recipe & Formula Analysis for Food & Nutrition Labeling
- Food, Dietary Supplement & Cosmetic Package Artwork and Marketing Materials
- 3rd party Certifications like Organic, Kosher, Non GMO and GFCO
- Health & Wellness Strategies for Food & Dietary Supplements
- Food & Cosmetic Claims Substantiation
- Market Surveillance & Competitive Assessments
- Due Diligence for Acquisitions in Food and Personal Care industry

#### Food Safety & Quality Services

- Supplier Quality Program Development
- SOPs and Document Control
- Crisis Management & Recall Preparedness
- FSMA & Regulatory Inspection Readiness
- SQF Product Traceback: Material Label Control & Inspection Program
